## MERCHANTS' SUIT AGAINST CITY IS IN CIRCUIT COURT

Effort to Restrict City From  
Collecting Licenses Under  
Ordinance of 1909.

Retail Druggists Tender Old  
License Fees.

MONEY RETURNED TO THEM

As stated in The Sun yesterday suit  
was filed to enjoin the city from col-  
lecting licenses under the 1909 ordi-  
nance. The style of the suit is:

Walters, John J. Doran, Robert  
Hicks and Ed Hubbard and A. Y.  
Martin, defendants.

Mayor Smith and all parties were  
served with notice of the suit today.  
Druggists are sending their old  
license fees through the mail. The  
new license for selling without a pre-  
scription is \$500, but several firms  
have sent checks for the old amount,  
\$25. These are returned through the  
mail, and some of them come back.

**Calhoun Case.**  
San Francisco, Feb. 3.—The tenth  
juror was chosen in the Calhoun trial  
and the seventh venire ordered sum-  
moned.

**MASSARANG FAMILY DID  
NOT REFUSE MAN SHELTER.**  
Mrs. Nick Massarang stated this  
morning that she felt she and her  
husband were done an injustice by  
the statement that they did not let  
Jerry Lewis, the negro, who after-  
wards froze to death, into their  
house. She said he did not ask for  
shelter, but only for water with  
which to wash his wound. He asked  
how far he was from Paducah, and  
admitted he had been drinking. Mr.  
Massarang directed him to a negro  
house on a neighbor's farm.

No intimation was made that the  
negro had asked for shelter or that  
he was freezing to death when he  
asked for water.

## ANTI-JAPANESE LEGISLATION IN WESTERN STATES

Sacramento, Cal., Feb. 3.—Anti-  
Japanese legislation is given special  
order today and is expected to pass  
the house with a bare majority and  
lost in the senate.

In Nevada,  
Carson, Nev., Feb. 3.—An anti-  
Japanese resolution was introduced  
in the house and will go to the sen-  
ate today, shorn of its criticisms of

## Governor Patterson Vetoes Bill Prohibiting Manufacture of All Kinds of Liquor Within Tennessee

DEAD MAN'S KNEE.

Washington, Feb. 3.—Geo.  
Kelly, patient at a local hos-  
pital, wearing the knee of a  
dead man, is expected to be  
able to walk. He was hurt  
and amputation of his leg  
was said to be necessary. A  
hospital patient died and by  
permission of relatives, the  
knee was taken from the dead  
man and put on Kelly's leg.  
This is said to be the second  
time in history such an op-  
eration was performed.

## MRS. IDA LOVITCH

MOTHER OF THE REV. M. LOV-  
ITCH, PASSES AWAY.

Rabbi of Temple Israel Called to  
Cincinnati to Attend Her  
Funeral.

Rabbi Meyer Lovitch, of Temple  
Israel, and Mrs. Lovitch, left today  
for Cincinnati, where they were called  
by the death of Dr. Lovitch's  
mother, Mrs. Ida Lovitch, of that  
city. No details have been received  
here as to the cause of the death, but  
Mrs. Lovitch had been in failing  
health for some time. The end, how-  
ever, was sudden.

**William Mangrum.**

Mr. William Mangrum, a retired  
farmer of Farmington, died Friday  
at his home of old age. His age was  
82 years. The funeral was held Sun-  
day afternoon at the Farmington  
cemetery. The following are relatives:  
Messrs. Robert Mangrum,  
Joseph, Marion and Cleveland Man-  
gum, Mrs. Edna Owens, Mrs. Sallie  
Grant, Mrs. Kittle Kelly, Mrs. Bettie  
Watson and Mrs. Rhoda Cloy.

**Glennie Nelson.**

Glennie Nelson, 2 1/2 years old, the  
little son of Mr. and Mrs. Asa Nelson,  
of near Meador, died last night after  
an illness of croup. The funeral took  
place this afternoon at 2 o'clock from  
the residence, with burial in the cem-  
etry at Owen's chapel.

**BOARD OF SUPERVISORS  
DO NOT INCREASE REVENUE.**

The city board of supervisors has  
about finished its work, although it  
will take several days more before  
the final figures will be ready. The  
real estate has been completed and  
an increase of about \$20,000 was  
made over the value of real estate  
last year. The members thought a  
larger increase would be made, but  
the general council has referred  
many cases of double taxation to the  
board, and this cut down the value  
of the real estate. At present the mem-  
bers are adding the total of the per-  
sonal property, which is expected to  
show no gain over last year.

## SAILOR ARRESTED AT LISBON THOUGHT TO HAVE PLANNED DEATH OF THE KING

Lisbon, Feb. 3.—The police today  
arrested a former sailor on the charge  
of being a man chosen from the group  
of revolutionary leaders to throw a bomb  
at King Manuel while

attending Monday's memorial ser-  
vices for his assassinated father and  
brother.

**Police Court.**  
Breach of the peace, Rudy Hale,  
\$10. Breach of ordinance, Ed Scott  
and Fred Bryant, continued to Feb-  
ruary 4. Malicious cutting, Tandy  
Reeves, continued to February 4. Ma-  
licious shooting, Will Harris, contin-  
ued to February 4. Police Judge  
Cross called court to order this morn-  
ing at 8:30 o'clock in order that he  
might get through with the docket  
and attend circuit court.

**Mrs. DeVaughn Escapes**

Sheriff John W. Ogilvie failed to  
locate Mrs. Esther Ruth DeVaughn,  
who took her child and left the Home  
of the Friendless Monday night. It  
is supposed that she left on a train  
for her home in Ohio, and Sheriff  
Ogilvie wired the police of Louisville  
to search the train. This was done,  
but Mrs. DeVaughn eluded the police.  
An order was issued yesterday after-  
noon by Circuit Judge William Reed  
against her for contempt of court.  
If Mrs. DeVaughn has reached Ohio  
it is doubtful whether the officials

## TENNESSEE COAL AND IRON DEAL AS A PANIC ARRESTER

Grant Schley Tells How Pur-  
chase Saved Stock Market  
From Crash.

Is Examined by the Senate  
Committee.

PUBLIC HAD LOST CONFIDENCE

Washington, Feb. 3.—Details of  
the formation of a syndicate to con-  
trol the Tennessee Coal and Iron  
company, and of the later negotia-  
tions for the sale of a majority of  
the stock of that concern to the  
United States Steel corporation, were  
given by Grant B. Schley, of New  
York, a member of the New York  
firm of Moore & Schley, who was a  
witness before the special committee  
of the senate committee on judiciary,  
which is investigating the president's  
authority for permitting the merger  
in November, 1907.

It was asserted by Mr. Schley that  
there were about 100,000 shares of  
Tennessee Coal and Iron stock in  
loans which they had placed with  
other banks, and that when the panic  
came on there was nobody buying or  
selling this stock, as so much of it  
was out of the market. In the de-  
velopment of the panic, he continued,  
"the banks declined to loan upon a  
security where the market was ap-  
parently normal. So I would have  
continued to call, 'Please take this Ten-  
nessee out of that loan' etc. Now it  
became a very serious matter."

Senator Culberson wanted to know  
why the steel corporation could not  
have relieved the situation by simply  
taking care of that 100,000 shares of  
stock which was in loans. He sug-  
gested that the steel corporation  
might have deposited steel bonds in  
lieu of the Tennessee company get-  
ting five or six million dollars which  
had been borrowed on the latter. Mr.  
Schley said such a thing had never  
been considered, nor had he thought  
of it before. He did not think such  
a thing would be practical.

## LOOSE LEAF HOUSE MAY BE LOCATED AT MURRAY SOON

Murray, Ky., Feb. 3.—(Special.)—  
N. T. Barnett, a tobacco dealer, of  
Hopkinsville, is here looking over the  
tobacco situation with a view of  
establishing a loose leaf tobacco ware-  
house to provide a market for farm-  
ers who desire to sell their tobacco  
independently of the association. No  
independent tobacco buyers have oper-  
ated in Calloway since 1907, when  
they closed out their business after  
a petition had been signed by the  
business and professional men of  
Murray, asking them to not buy any  
more tobacco on account of the night  
rider troubles. Before opening an  
establishment here, where loose to-  
bacco may be sold, Mr. Barnett has  
asked the business men to sign a  
petition guaranteeing him their  
moral support and protection. If  
such guaranty is given him he says  
he is ready to open the business.

While the business men have not  
yet signed the petition asked of them,  
it is known that they are anxious to  
have a market established here for  
the accommodation of independent  
farmers, who are now forced to haul  
their crops to a distant market, caus-  
ing the local merchants considerable  
loss of business on that account, as  
the farmer generally buys supplies at  
the town in which he sells his to-  
bacco.

**Arizona Rangers Bill.**

Phoenix, Ariz., Feb. 3.—Wednes-  
day bill, abolishing Arizona rangers  
was passed by the council of the senate  
today. It is said the bill will be ve-  
toed when it goes to the governor.

## Becomes Her Own Avenger, Killing Her Assailant and His Witnesses When They Testify Against Her

Texas Girl Creates Scene at  
Gatesville by Shooting three  
Men During Trial of One of  
Them.

Gatesville, Tex., Feb. 3.—John  
Hanes and David Smith, who were  
wounded yesterday by Vera Ware  
just before their trial in which she  
was the accusing witness, are dead.  
The girl was rearrested on the charge  
of murder. David Ross is wounded  
and expected to die.

Rising from her seat at her coun-  
sel's table in the criminal court here,  
Miss Vera Ware drew an automatic  
pistol from a hand satchel, leveled it  
at John Hanes, on trial for an assault  
on her, and pulled the trigger.  
Hanes fell to the floor with three  
bullets in his body.

Then turning from the form on  
the floor, the girl emptied her pistol  
at David Ross, James Smith and A.  
P. Wiley, all witnesses for Hanes.  
Every shot she fired found its mark.

When the judge, members of the  
jury and the lawyers gathered around  
the counsel table rushed for Miss  
Ware she turned the pistol upon her-  
self in an effort to end her life.

The weapon was knocked from her  
hand. Subdued after a brief strug-  
gle, the girl stood for a moment look-  
ing down at the four forms stretched  
out on the floor. Then she collapsed  
and was borne fainting into the coun-  
ty jail. Physicians who examined  
her there said she was suffering from  
nervous prostration and pronounced  
her condition critical.

Miss Ware gave no warning of her  
intention to kill the men who ac-  
cused her. She appeared calm while the  
testimony was in progress until  
Hanes, the prisoner, took the stand.  
Suddenly she sprang to her feet,  
jerked open the hand satchel and  
whisked out the pistol. The shots  
were fired so rapidly that even her  
lawyers, within six feet of her, had  
no chance to interfere until she had  
practically emptied the pistol.

**Wall Paper Trust Hit.**

Washington, Feb. 3.—In a suit by  
the Continental Wall Paper company,  
a trust to collect a bill, the United  
States supreme court by a majority  
of five to four, decided it comes  
under the Sherman law ban and has  
no standing in court.

**Tobacco Trust Wins**

Frankfort, Ky., Feb. 3.—The ap-  
ellate court reversed the cases  
against the American Tobacco com-  
pany in Anderson and Shelby counties  
on account of defective judgments.

**Bill Squires Defeated**

London, Feb. 3.—A message from  
Australia today says Bill Lang de-  
feated Bill Squires, Australian boxing  
champion, in the seventeenth round.

**Wickliffe Bank Case**

Frankfort, Ky., Feb. 3.—(Special.)  
—Appellate court reversed Farmers'  
bank of Wickliffe vs. the city of  
Wickliffe.

## KENTUCKY WRITER COMMITTS SUICIDE IN HIS APARTMENT

New York, Feb. 3.—John Gilmer  
Speed, who occupied, during his career  
as a writer, high places in the  
newspaper and magazine fields, com-  
mitted suicide today by shooting him-  
self through the head in his apart-  
ment at the Phoenix hotel in Men-  
ham, a suburb of Morristown, N. J.  
Mr. Speed was of a well known Ken-  
tucky family, which has produced  
many writers and journalists. He  
was graduated from the University of  
Louisville as a civil engineer, but fol-  
lowed the family bent very soon and  
entered journalism. He came to New  
York in 1877 and joined the staff of  
the World, becoming managing editor  
several years later. This position he  
held until the paper changed to its  
present management.

He arranged the publication of  
the works of his grand uncle, John  
Keats, the poet. In 1887 he was re-  
cretary of the American exposition in  
London. Returning, he made his  
home in New Jersey, and wrote sev-  
eral books, the best known of which  
were "A Fall River Incident," "A  
Deal in Denver" and "The Horse in  
America." For a time he was editor  
of Leslie's Weekly and was a frequent  
contributor to all the literary maga-

SCHOOL ORATORS.

Plans are completed for an  
excellent primary oratorical  
contest at the High school  
February 12, when the rep-  
resentative of the school will  
be selected by judges to com-  
pete in the oratorical contest  
at Madisonville. Five students  
have entered the contest,  
while Frank Luftenberg has  
not decided definitely whether  
he will compete. The subjects  
of the young orators were an-  
nounced this morning: "The  
Old South," Miss Allie D.  
Foster; "Woman, the Home  
Builder," Miss Clara W.  
Smith; "The Kentucky States-  
men," Marvin Sills; "The  
Night Rider Question," Ed-  
win Mitchell; "True Ideals of  
Manhood," Edwin Light-  
foot.

## TALL CEDARS

WILL ORGANIZE FOREST OF LE-  
BANON IN PADUCAH.

National Officers Will Arrive From  
New Jersey to Organize Young  
Masons.

The Kentucky Forest of the Tall  
Cedars of Lebanon, a social auxiliary  
of the Masons, will be formally in-  
stalled tomorrow night by a dele-  
gation of national officers, who will ar-  
rive tomorrow evening from New  
Jersey. The local branch was or-  
ganized several weeks ago and offi-  
cers were elected, and already the  
Paducah forest has between fifty and  
sixty members. With an excellent  
start it is expected that the members  
will increase.

The party of national officials will  
arrive tomorrow evening at 6:10  
o'clock from Louisville, and they will  
be met at the Union station by a com-  
mittee. The officers will be: F. W.  
Bowen, of Camden, N. J., supreme  
tall cedar; William L. Binchard, of  
Newark, N. J., supreme guardian;  
George W. Rogers, of Palmyra, N. J.,  
deputy supreme tall cedar. After a  
drive over the city the officers will be  
driven to the Fraternity building,  
where the installation will take place.  
With the work completed the mem-  
bers and guests of honor will go to  
the Palmer House at 11 o'clock when  
a banquet will be served. Major J.  
H. Ashcraft will preside as toastmas-  
ter, and a full program of speeches  
and responses will be arranged.

The Kentucky Forest of the Tall  
Cedars of Lebanon was organized  
several weeks ago, and is a social side  
degree for the young or members of  
the Masons. It is similar to the  
Shriners, but the qualifications for a  
Mason to become eligible for admis-  
sion to the Shriners are such that  
the younger members can not reach.  
By the establishment of the forest the  
younger members can have a pleasant  
social order. The officers of the Ken-  
tucky forest are: H. W. Drenk, grand  
mogul; David Koger, senior grand  
mogul; Roy L. Culley, junior grand  
mogul; John Brooks, secretary and  
treasurer.

**Back Tax Suits.**  
Suits have been filed in county court  
by W. M. Hushands, revenue agent  
for McCracken county, against two  
distilling firms charged with the fail-  
ure to report stock for taxation. In  
the suit it is alleged that A. S. Ter-  
rell had in stock for the years 1903,  
1906 and 1907 whisky to the value  
of \$49,500, which was not reported to  
the state auditor. A second suit  
was filed against Adolph Weil, it  
being alleged that for the years 1906,  
1907 and 1908 the distillery had  
\$66,220 worth of whisky on hand,  
which was not reported to the state  
auditor for taxation.

**Loose Leaf Sales.**  
Bohmer's loose leaf sales amounted  
to 30,000 pounds of tobacco this  
morning. The prices range from 4 1/2  
to 8 cents. The character of the  
breaks was a little inferior this morn-  
ing owing to the fact that the bad  
weather has kept the growers from  
bringing their best tobacco to the  
market. There were no rejections at  
this morning's sales and the prices  
were satisfactory. The bidding was  
spirited by a large number of the  
local buyers being present. The warm  
weather will prove to increase the  
sales day by day.

**HABEAS CORPUS INVOKED  
FOR CHILD'S POSSESSION.**

Habeas corpus proceedings were  
heard before Circuit Judge William  
Reed this morning over the possession  
of Wallace Fondaw 14 years old.  
Through his attorney, F. E. Graves,  
Robert Fondaw took out the proceed-  
ings to have the boy placed in charge  
of his brother or mother. Fondaw  
and his wife, Bettie Vossler, separ-  
ated about a year ago, and since she  
married Vossler. The boy accom-  
panied the mother to Cairo, and  
thence back to Paducah, but the son  
is somewhere in Missouri. No deci-  
sion was given this morning as it was  
explained that the lad is en route to  
Paducah, and probably will arrive to-  
morrow, when more evidence will be  
heard.

## When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

**Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.**

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

## APPORTIONMENT FOR DEPARTMENT

Considered by Board of Public Works Last Night.

Welkel Culvert Contract Again Recommended to the General Council.

WILL OIL STREETS OF CITY.

For the second time this year the bid for the construction of a culvert over Bradshaw's creek between Broadway and Jefferson street was recommended to be let to H. M. Welkel last night at a special meeting of the board of public works. The bid was recommended to Welkel before, but the general council refused to let the bid, asserting that it was too high. Bids were advertised for again, and there were three bids in last night, but owing to the conditions only one bid was eligible to be considered.

When the bids were opened the bid of Thomas Bridges & Sons was \$4,723.50; George W. Katterjohn, \$4,779, and H. M. Welkel, \$4,928. The bids of Katterjohn and Bridges & Sons were for cash or payment ten days after the work was received, and as this was not according to the rules by which the contract was to be let, the board ruled out the bids. Although higher, the bid of Mr. Welkel was considered reasonable, according to the plan he has agreed to receive payment, as it will be fully twenty years before he is remunerated.

Mr. Welkel is the owner of the property, which will be benefited most by the culvert, and he has agreed that every year he will pay taxes on the property, and this will be made a voucher, and given credit on the estimate of the city engineer. The city will not pay interest on the money, although it will be several years before the debt is wiped out. All checks were ordered returned to the unsuccessful bidders.

**Apportionment.** Another object of the meeting was the consideration of the apportionment of the departments under the board. The electric light plant received an apportionment of \$11,500, which will include a new brick stack and a new boiler. City Engineer Washington was instructed to prepare plans for a brick stack, and for the foundation for a metal stack. Bids will be invited after the plans have been completed. J. O. Keebler, superintendent of the lighting plant, was instructed to get prices on boilers and submit them at the next regular meeting.

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root cures kidney trouble, holds urine and seeping pain in passing, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy, is soon realized. It cleans the system, because of its remarkable health restoring properties. A trial will convince anyone. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., 1031 Highland Ave., New York. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root. If you do you will be disappointed.

meeting. The board will select a holder after the plans for the brick-work have been completed.

**Street Department.** The street department was given an apportionment of \$32,000, and the board divided it as follows: \$14,500 for engineering department for new work; \$3,000 for sewer department; \$12,000 for street repairs; \$2,500 for the use of experimenting with crude petroleum oil on the streets instead of sprinkling with water. City Engineer Washington was requested to make estimates for the new work, and how much can be done out of the apportionment of \$14,500. The covered sewer drain for the Hinkleville road, adjoining Oak Grove cemetery, was especially recommended. At present the drainage ditch is open, and the road is made narrow.

J. B. Ogilvie & company was given permission to connect with the city water mains in order that the store may be connected with a private fire protection system.

R. W. Walker & company and the Cochran Shoe company were given permission to erect electric signs, after submitting of plans. The plans were approved, and the work ordered completed under the supervision of the city electrical inspector, W. J. MacPherson.

Mr. Katterjohn moved that the Hinkleville Central railroad be notified to

repair the sidewalk on Eleventh street between Broadway and Jefferson street. The sidewalk was placed in bad order by the railroad lowering the grade of its tracks.

Street Inspector Bell was instructed to place 40 loads of gravel on the city wharf.

A new buckboard was ordered purchased for the light department for use of the trimmers. One hundred barrels of cement were ordered purchased for the street department.

President Richard Rudy and Mr. E. W. Katterjohn were present last night. Secretary Louis Kohl was out of the city.

## News of Theatres

Wayne Musical Comedy Company.

The Wayne Musical Comedy company will open at The Kentucky for a two nights engagement, commencing Friday, February 5, in a repertoire of musical comedy. The opening bill will be the beautiful lark comedy, "The White Hat."

**White Deer and a Black Fox.**

Something unusual in the animal kingdom has just been killed by Prince Edward hunters and brought home. It is a deer pure white in color, save for two small black spots back of its ears. The animal is a fine looking stag and weighs about 200 pounds. It has a magnificent pair of antlers. The hunters were reluctant as to which member of the camp captured this very unusual species, but it is understood that Grant Sprague of the Elk Island was the lucky shot. The animal was found in the northern part of Hastings or Lennox and Addington.

Another unusual kill made by one of the hunters was a black fox, now a very rare animal, whose skin is very valuable.—Pleton correspondence Toronto Globe.

"Jennie," called the old gentleman from the top of the stairs, "give that young man this dollar note."

"What for, papa?" asked his daughter in surprise.

"Why I want him to pay our milk man his bill. I know he'll meet him as he goes out."—Chicago News.

He's an active candidate who runs ahead of his ticket.

## Danger From Rats

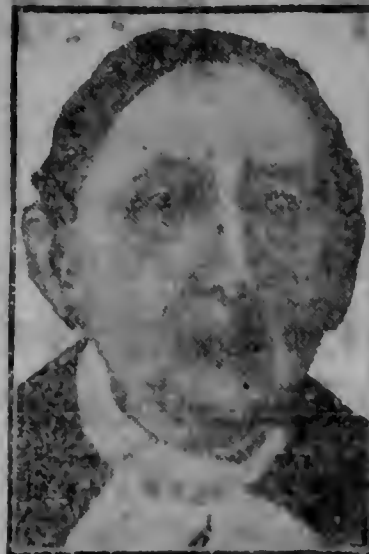

No One Can Afford to Allow These Pests to Live.

A single rat will sometimes do more than ten dollars damage to four homes or stores in a night. And the rat is never single, but raises large families to destroy property and endanger health. At the first sign of rats, drive them out of the house to die, with Stearns' Electric Rat and Roach Paste. Guaranteed to absolutely exterminate them or your money back. Also sure death to cockroaches and other vermin.

Stearns' Electric Paste is sold every where, or sent express prepaid on receipt of price. 5 oz. box 35c, 16 oz. box \$1.00.

## Hale and Hearty at 94

Mrs. Laura B. Wheeler, Winsted, Conn., who is in her 94th year, says that she owes the health and vigor she enjoys to the judicious use of the world's greatest tonic-stimulant, Duffy's Pure Malt Whiskey. She recommends it for nervousness.

In June, 1908, Mrs. Wheeler wrote: "We are very glad to write you saying that we have been using Duffy's Pure Malt Whiskey with marked improvement. Think it is a good remedy for nervousness."

"I am in my 94th year and am enjoying excellent health, thanks to your tonic stimulant and great medicine for the old."

Every testimonial is guaranteed genuine and is published in good faith with full consent.

## Duffy's Pure Malt Whiskey

is the greatest strength builder and tonic stimulant known to medicine. It attacks the seat of the disease, drives out the germs and rebuilds the weakened tissues, in a gradual, healthy, natural manner. It is an absolute cure and preventive of consumption, pneumonia, grip, bronchitis, coughs, colds, malaria, low fevers and all wasting, weakened, diseased conditions, if taken in time.

It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system, is a promoter of health and longevity, makes the old young and keeps the young strong.

**CAUTION.**—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's an absolutely pure medicinal malt whiskey and is sold in sealed bottles only—never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.00. Write Consulting Physician, Duffy Malt Whiskey Co., Rochester, N. Y., for a free illustrated medical booklet and free advice.

### BARGAIN SEEKERS

ENJOY A GREAT SALE FEST TO-DAY AND TOMORROW.

Rudy's Annual Silk Sale the Magnificent That Drew Them Down Town in Numbers.

There are few things that come under the observation of men that are more interesting than bargain sales. To see the women scramble over this lot of goods only to turn to another when the same come other women "have her eye on the other piece"; to note her then as she hesitates between this piece and another. She puts in a half day in the process, then departs for home radiant with keen satisfaction over her purchases, eager to show them to her envious neighbors.

One of the biggest bargain sales that has been held in Paducah in years is the silk sale at Rudy & Sons, which was inaugurated this morning. Bright and early, the store filled up with eager shoppers and all day the big fere, which was concentrated in this department has had all it could do to handle the trade.

Rudy's silk sales are annual events looked forward to with great anticipatory pleasure each year. Each year they are more successful than the one preceding, but the one this season, in point of the bargain offered, the range of patterns, and excellence of quality, and the remarkably low prices, has far surpassed all expectations.

"We are showing the best values we have ever brought on for a silk sale," said Mr. Henry Rudy today. "We went to Chicago and St. Louis a few weeks ago to look for silks for our trade, and struck the biggest bargains in every essential, that we ever ran across. We have plenty of

silks too, for the two days' selling, the term of the sale, and our lady friends who were unable to get down today, will find just lots of the biggest sort of values here tomorrow."

France's increase in population is only 31,000 a year. Germany's is nearly a million a year.

### Ten Doctors Said He Would Die

"In 1903 we wrote you regarding my husband, who was suffering from heart trouble. He was superannated by the North Georgian Conference. Ten doctors at different times said he would die. You advised Dr. Miles' Heart Remedy and Restorative Nervine; we did as advised, and improvement was apparent from the very first. He recovered and the Conference in 1904 gave him a charge. He never felt better, although he has very heavy work and does a great deal of camp meeting work. I am so glad we took your advice and gave him the medicine, and feel that I ought to let you know of the wonderful good results from its use."

MRS. T. S. EDWARDS,  
Milner, Ga.

This proves what Dr. Miles' Heart Remedy will do. Get a bottle from your druggist and take it according to directions. It does not matter whether your heart is merely weak, or you have organic trouble, if it does not benefit you take the empty bottle to your druggist and get your money back.

### MAUSOLEUM

TO BE ERECTED IN OAK GROVE BY A. J. GREIF.

Will Place Bodies of Parents and His Children in the Beautiful Receptacle.

Another fine mausoleum is being erected in beautiful Oak Grove cemetery, the work having been completed on the foundation and three carloads of stone for the superstructure have been received. The mausoleum is being erected by Mr. A. J. Greif, who is the manager of a large sugar plantation in Porto Rico, but to whom Paducah is still home. When completed the parents of Mr. Greif, now resting in Oak Grove cemetery, will be placed in the handsome mausoleum as well as several children of Mr. Greif, now buried at Fulton. The cost of the mausoleum will be \$10,000. All of the work was done in New York, where it was built, and then shipped to Paducah for erection in the cemetery.

Picture of the mausoleum have been received, and the addition will be a creditable one to Paducah's beautiful silent city.

Mr. Greif, while he has been away from Paducah for 30 years, is still contented to call Paducah home, and expects to return to Kentucky some day and make his home. He was superintendent of several divisions of the Illinois Central railroad for many years, and several years ago was placed in charge of a large sugar plantation in Cuba by President Fish. Mr. Greif was unusually successful in the management, and he took charge of a larger plantation in Porto Rico.

### ICE MEN

ORGANIZE ASSOCIATION AT CARBONDALE.

Southern Illinois Dealers Agree on What They Will Do.

A dozen southern Illinois ice manufacturing concerns were represented in the meeting held at the New Hurdley hotel in Carbondale Saturday, the meeting being called for the purpose of effecting an organization for "mutual co-operation and general good fellowship." Ice companies at Anna, Cairo, Mounds, Mound City, Metropolis, Johnston City, Marion, Murphysboro, DuQuoin, Centralia and Carbondale were represented and the organization was perfected with the following officers:

President—J. G. Murphy, Mound City.

Vice President—A. Christ, Jr.

Secretary—A. L. Spiller, Carbondale.

Treasurer—W. C. Alexander, Murphysboro.

Directors—Fred Pallen, Centralia; C. A. Gent, Marion; J. Norman, DuQuoin; D. E. McCarthy, Cairo, and J. G. Murphy, Mound City.

The name chosen for the new organization is the Southern Illinois Ice Manufacturers' association and it is expected that all the ice plant owners in the southern Illinois territory south of the B. & O. S. W. will become members.

A POSITIVE CURE FOR INDIGESTION.

If you have indigestion, your food ferments in the stomach and bowels. It does more: it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath which disgusts your friends, and the other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments and oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

M-I-O-N-A is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by Gilbert's drug store to cure or money back. The price of a large box of M-I-O-N-A tablets is 50 cents, and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them.

### English Milk Wagon.

In English towns, a Canadian visitor declares in the Queen, the foreigner runs out to the pavement just to see that glorious chariot called a milk float go by—that gay bit of a two-wheeled thing, white and yellow, white and blue, or red, white and blue, with the shining brass character over the shining brass rail in front, the little square seat inserted at the rear, and the chariotier standing at the back like Ben Hur and driving as much like that hero as—in a modern town where even motor cars are not unknown—is practicable. The English milkman who comes on foot, with a modern poke on his shoulders

and swinging at each side a brass-bound tin pail, in which is a queer little measuring dipper. Who could wish to have milk delivered in glass bottles, with a paper sealed top, when he can have it measured out at his door into his own jug in this quantity curious fashion? What do milk-crobes amount to compared to the joy of the medieval!—Exchange.

## Final and Most Sensational After-Inventory Reduction

THIS last reduction comes as a fitting climax to our Clean-up Sale. It means the biggest saving event ever held on High-Grade Clothing. There's a good many fine Suits and Overcoats here that must be closed out regardless of their value. Of course, it's only fair to tell you that the \$40 and \$35 Suits are all sold, but there's a sprinkle of \$30.00 values left and a good bunch of \$25, \$22.50 and \$20 Suits and Overcoats here for you to select from. Even if you don't need the clothes you can well afford to buy in this sale and lay aside for next fall. Many of the styles are staple and conservative—just as good next winter as now. The reason why we've reduced them so much is to turn them into cash; and to keep from carrying them over—that's our rule.

## Daily Thought.

"Help us to remember that greater than any church or creed is kindness."

As we were about to say, the groundhog saw his shadow.

Mr. Taft went through Culebra cut and is satisfied. It's wide-enough then.

A councilman Monday night voted he believed, that in spite of the legally posted petition, residents in the vicinity were not aware of the licensee's intention. In third class cities it is necessary to publish such a notice in the newspapers. Such a method in Paducah would avoid the possibility of all the residents failing to see the notice.

Chicago's Municipal Voters' League suggested that aldermen be paid higher salaries in the hope that better men could be secured on the board. So the aldermen Monday night increased their own salaries from \$1,500 to \$3,000, as a concession to the league. That is the first reform policy the Chicago aldermen ever adopted, and should greatly encourage the Municipal Voters' League.

"The Republican members of this committee (finance) doubtless voted as they did from a partisan standpoint, but why, in being asked on all sides, did Messrs. Hannan and Lally so far forget their obligation to the city's welfare as well as to those of a like political faith who elected them to give aid to the man whom they knew to be an illegal usurper, against their own political sentiment, as well as against the advice of the city solicitor, whose single opinion has ever been that Mr. Dorian is illegally holding the office of treasurer, and further that the city's funds thus paid out can never be recovered? This is a question the News-Democrat would ask and it is a question that can not be intelligently answered," blusters the News-Democrat.

Well, why don't you quit asking fool questions that can't be intelligently answered?

## SCHOOLS.

Chicago schools are so overtaxed for room that temporary quarters are hired in every ward, and the city this year will spend its surplus revenue in providing quarters for the pupils. Paducah is confronted by the same situation, excepting that her most pressing inadequacy just now is lack of facilities. If all the children were in school, as they necessarily must next year when the state will compel the city to employ a trustee officer or forego her share of the per capita distribution, there will not be room enough, or teachers enough. Now here's a chance for Paducah to lay out some of her surplus revenue. The school board asks for \$10,000, which means a voluntary appropriation from some fund in the municipal budget of about \$5,000. That can be done. If the estimated revenue is obtained. Of course, there is a distinct apportionment of the tax levy for school purposes; but the same people who both the city and school taxes, the school levy is increased, it will

reduce the city levy just that much. So the whole question is as broad as it is long.

The schools will get through this year by drawing on the July revenues, which should go into next year's fund for paying teachers, and if the board is not given money, the same trouble will be experienced next year that we had until the holidays this year.

## A RIGHTEOUS REFORM.

It is pleasant to observe the improvement in the weekly reports from the state insane hospitals. The old brutal methods, which sometimes resulted in homicides, have been abolished, under the scrutinizing eye of the governor, and restraint is less and less apparent at the institutions. A former patient at Lakeland writes that she finds the old brutal attendants dismissed. If the head of the state executive forces takes a determined stand, we need have no fear about his spirit being reproduced in the conduct of subordinates. It was shameful to think of a great state housing unfortunate wards in an institution where a lot of pot house politicians, set to guard them, could resort to all the methods of torture, cruel and provoked ingenuity could invent. If Governor Wilson had no other record, his reform of the hospitals for the insane is a monument.

## CIVIL SERVICE AND POLITICS.

Without bearing directly upon the question of Chief Wood's election as fire chief, there are two vital points in this controversy over the application of civil service rules to the fire department. In the first place, it is absurd to say that an official may use his personal and official influence in politics and be protected by civil service rules if his side loses. Under proper civil service regulations, the worst offense of which the incumbent can be guilty is engaging in politics.

The other point was brought out by the investigation of the city solicitor. He found a decision of the Kentucky court of appeals, declaring specifically that the legislature may not impose rules, governing the employment of firemen; so that section 3, chapter 7, of the act of 1900, is not binding on a city at all; and the case of Combs, Mayor, vs. Bonelle, has nothing at all to do with this law. That the case arose in Lexington, where the board of police and fire commissioners has adopted civil service regulations, and this case rested on the board's own rules and not the statute of the legislature.

It would be a grievous error for the head or any member of a fire or police department to be so protected, that he would feel safe in working to embarrass the administration politically and to prepare the way for an administration of his own selection. Civil service rules are designed to protect employees from politics, not in politics.

## SOME STORIES

## AROUND TOWN

When Gus Thompson's friend, James P. Smith, became mayor Gus had his attention for the first time directed toward public affairs, and one day he said he thought it would be a pleasant reflection for one, that when he came to die, his obituary would refer feelingly to his public service, and people would always use his name with a handle to it, and thus not tuck it. Mayor Smith took the suggestion seriously and after careful consideration of the matter decided that it would be fine for Gus to round out his career as city pound keeper, as Gus didn't desire honors that would conflict with his private business. So it was arranged that Gus should assume the title, honors and perquisites of that office. The obligations of the office have not infringed on the time of Mr. Thompson, but he has learned that patriotic service to a busy man, carries with it a distinct sacrifice. Christmas eve Frank Lamkin disappeared and left his horse and buggy on the street. It was gathered up and conveyed to the city pound, where Mr. Thompson has been feeding the animal ever since. It is not worth as much as the feed bill already amounts to, and Chief Collins refuses to permit Mr. Thompson to sell the horse for the city. Mr. Thompson cannot use the animal, for he would lay himself liable for any injury to it. The horse is a good eater, notwithstanding its lack of exercise. Poundkeeper Thompson is beginning to believe that a public official deserves all that is said of him in his obituary if he has to wait until he dies to have it said.

Boyle Woolfolk, who produced his musical comedy, "The Traveling Man," in Paducah last year and scored such a big success, is now with Murray &amp; Mack, as director, and is making quite a reputation. He is writing a good deal of new stuff that is pronounced excellent, and is using some of the songs he used here in his production, as will be seen by the following item from "Texas":

"Boyle Woolfolk, secretary and treasurer of the Murray &amp; Mack Amusement company and guiding star of the destinies of their successful musical comedy, 'The Sunny Side of Broadway,' writes from El Paso, Tex., that the show is playing to phenomenal business in the southwest, and that it has been booked at the Masonic theater, in this city, for Easter week.

"Mr. Woolfolk also states that he has signed Max Bloom, of Louisville, for the stellar role in 'The Sunny Side of Broadway' for next season, and that he will write a part during the summer to fit him. Mr. Bloom

is one of the cleverest comedians that Louisville has produced, and his friends will be glad to hear of his success.

"Mr. Woolfolk's music has scored a big hit throughout the west, and in every city where 'The Sunny Side of Broadway' is presented the critics make special mention of the 'classy and tuneful airs' with which the piece abounds. This week, in El Paso, he made a wonderful success with 'Stage Door Johnny,' 'Sahara Sarah' and other good numbers of the musical program.

"The El Paso Herald, among other good things, said:

"Probably the prettiest thing in the whole show is the motor-boat song and chorus. Miss Grace Maudlove sings it, and she sings it well, too, and the uniqueness of the motor-boat scene, with real waves and a real boat, caught the audience, and she had to respond to encores until she must have got tired."

## CAUSE FOR ALARM.

Loss of Appetite or Distress After Eating a Symptom That Should Not Be Disregarded.

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicate indigestion or dyspepsia. Over eating is a habit very dangerous to a person's good health, and insatiable appetite a sure symptom of diabetes.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest and healthiest persons are moderate eaters.

There is nothing that will create sickness or cause more trouble than a disordered stomach, and many people daily contract serious maladies through disregard or abuse of the stomach.

We urge everyone in Paducah who is suffering from any stomachic disturbance, indigestion or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not perfectly satisfied with the results. We recommend them to our customers every day, and have yet to hear of anyone who had not been benefited by them. We honestly believe them to be without equal. They are made from the prescription of a physician who devoted all of his time to the study and treatment of stomachic troubles. They give very prompt relief, neutralize the gastric juices, strengthen the digestive organs, create good digestion and assimilation, naturally regulate the bowels, promote perfect nutrition, and create a permanent cure of all unhealthy symptoms.

We urge you to try a 25c. box of Rexall Dyspepsia Tablets, which gives you 15 days treatment. At the end of that time, your money will be returned to you if you are not satisfied. Of course, in chronic cases length of treatment varies. For such cases, we have two larger sizes, which sell for 45c and 89c. W. B. McPherson, Paducah.

## Funeral of Mrs. Flora Clark Young.

MRS. FLORA CLARK YOUNG.

A great concourse of friends attended the funeral of Mrs. Flora Clark Young this afternoon, and flowers in profusion were banked about the casket. The funeral took place at 2 o'clock at Grace Episcopal church, the Rev. D. C. Wright officiating.

The pallbearers were: Active—Gus Thompson, Will Gilbert, Hughes McKnight, Edwin Paxton, Arthur Martin and Rankin Kirkland. Honorary—Walter Weil, James Campbell, Jr., Will Owen, Cade Davis, Parker Chastaine and Joseph Sinnott. Major J. P. Smith, Dr. H. H. Duley, Roy McKinney.

"The Little Colonel." The Louisville Post contains a picture of Mrs. Flora Clark Young and the following account:

"News has been received here of the death in Denver, Col., on January 28, of Mrs. Arthur Young, better known to her many friends in Louisville as Miss Flora May Clark, or 'The Little Colonel.' She was a member of Norman Hackett's theatrical company which was playing 'Classmates' in the east, and had a very bright future ahead of her.

"Mrs. Young's health began to fail several months ago, and she went at once to Denver to recuperate. Her sister, Mrs. Henry Horace Cleugh, of Regina, British Columbia, came to the bedside of her sister as soon as it became known that her illness was serious, and remained with her devotedly until the end.

"Mrs. Young was a native of Paducah, Ky., and was one of the most beautiful and popular young women of that city. She went on the stage several years ago, and had been steadily forging to the front in her vocation. The part which she was playing in 'Classmates' when she was taken ill was conceded by all to be the most beautiful interpretation of the character that had ever been given by an actress.

"Mrs. Young began her stage career under the name of Lillian Lancaster. She played Rosalind in 'As You Like It,' and together with her talented husband, played various roles in repertoire with Louis James. She was a painstaking and ambitious actress, a lovable woman and a devoted wife.

"Several years ago when the First Kentucky regiment was in annual encampment at Paducah, Gen. John B. Castleman, who was in command of the troops, named Mrs. Clark 'The Little Colonel,' a sobriquet which she bore until the day of her death.

"The body will be brought to Paducah for burial, and the interment will take place in the family lot this afternoon."

Letter From Norman Hackett.

The following beautiful tribute to Mrs. Flora May Clark Young was received from Norman Hackett today by the family:

"Dear Mrs. Clark and Family:—It is a very kind of you to write us so promptly, for we have all been keenly interested in Lillian's condition and sincerely hopeful that a radical change for the better would favor her, but last Friday the sad news was wired me from Winnipeg, and it has cast irreparable gloom over the entire organization.

"Her lovely spirit seems to hover in the wings with us and our only consolation is that she has found peace and rest from her cruel suffering, and in the beautiful memory we all have of her.

"I can well appreciate how deeply grieved her family and husband must be, and I do sympathize profoundly with you all; for you have indeed sustained a great loss.

"No philosophy can tell why so noble, so true, so lovely a soul, yet in her beautiful youth, and such an

## IN SOCIAL CIRCLES

**Dance Tonight at the Palmer.**

The German club will have a dance this evening at the Palmer House. It will be one of the delightful social functions of the winter.

**Card Party for Delinquent.**

Mrs. Mohr Michael has issued invitations for a card party at the Standard club rooms on Thursday afternoon to present her daughter Miss Ruby Michael, to society; and also, in honor of Mrs. Joseph Jacobs, of Ames, Iowa.

**Charity Club Tea.**

Thursday afternoon from 3 to 5 o'clock the Philanthropic department of the Woman's club, more generally known as the Charity club, will have a Tea for charity at the club building. This is the regular open meeting of the club and will be a pleasant social occasion. An offering of ten cents will be made at the door for the funds of the Charity club, and the public is cordially invited to give a generous co-operation. The Charity club has had many demands upon it the recent severe weather, and money is needed. An informal musical program will be rendered during the afternoon and light refreshments will be served. The candy table will be in charge of Mrs. John W. Scott and a number of the young society girls.

**Social Evening at Tenth Street Church.**

A reception was given by the Ladies' Aid society of the Tenth Street Christian church, last night at the church. A pleasing musical and literary program was carried out. It included a recitation by Miss Helen Darnell, a song by Miss Elizabeth Wheeler, a song by Master Charles Pennington, Jr., and a reading by Mrs. Wilson Stewart, of Morehead, Ky.; a duet by Misses Saffie and Gertrude Forest, and a reading by the Rev. C. E. Jackson. Delightful refreshments were served.

**U. D. C. Chapter.**

The Paducah Chapter United Daughters of the Confederacy met in regular monthly session at the Woman's club building yesterday afternoon. Mrs. J. B. Bartee and Miss Mabel McNeola were the hostesses. Music was omitted from the program out of deference to Mrs. Flora Mae Clark Young, who was a member of the chapter. Resolutions of sympathy, with a pretty tribute to Mrs. Young were adopted. The chapter sent for its floral offering a "yellow" male of red and white flowers, with

## RESTORATIVE TREATMENT FOR NERVOUS MEN.

Coming from a source of unquestioned authority on the ailments of men it is presumed to be infallible, while the profession generally endorses the ingredients and prescribe them in many different forms of various diseases. The following formula is highly efficient in quickly restoring to nervous exhaustion, melancholia, anxiety, timidity in venturing, dizziness, heart palpitation, trembling limbs, insomnia, thinness, cold extremities, tired-all-in feeling and general inability to do those natural and rational acts upon which depends a man's success and happiness in social and every-day life.

The instructions for mixing at home secretly so that no embarrassment may be felt, are as follows: First get three ounces of syrup sarsaparilla compound and one ounce compound fluid balsam; mix and let stand two hours. Then add one ounce compound essence cardiol and one ounce tincture codonema (not cardamon) and mix all together. The directions are to take one teaspoonful after each meal and one when retiring, until bounding health and full strength are restored. Even a few weeks will witness most wonderful results.

Astonishing nervous force and equilibrium follow the treatment no matter how serious the case.

This contains no opiates whatever and may also be used by women who suffer with their nerves with absolute certainty of prompt and lasting benefits.

**TOO WEAK TO WORK.**

Suffered from Stomach Trouble and General Debility. Mrs. Minor Was Weak, Sick, Discouraged.

**RESTORED TO HEALTH BY VINOL.**

Last January I was all run down in health and so weak that I was unable to attend to my household duties. I was very much discouraged with my condition, as I was receiving no benefit whatever from the medicine I had taken. Finally on the recommendation of my druggist I decided to try the cod liver and iron preparation, Vinol. In a short time I felt better, and after taking five bottles my health was fully restored. I have suffered from stomach trouble for years, but since taking Vinol this trouble has entirely disappeared, and I now eat better, sleep better and am better than I have been for a long time. Vinol certainly worked wonders in my case and I heartily recommend it to any one in need of such a medicine. Mrs. Harvey L. Minor, Canal Dover, Ohio.

With such evidence of the power of Vinol to restore strength and vitality to all weak and sickly persons, do you wonder that we do not fear to say try Vinol. If it fails to benefit you we will return your money. That's our guarantee. W. B. McPherson, Paducah.

## Medical Fee.

The American Medical association, our highest medical authority, has never attempted to establish an ethical fee. In point of fact the fee evolves itself and ever has been and ever will be a graded one. The great bulk of practice is practically charity—that is, it represents small fees or no fees. This is true alike in the remote country districts and in the great metropolitan centers. This is one difference, however, which should be distinctly remembered, and

that is that rural charity is generally deserved, whereas urban charity is often misplaced. It is stated that practically 33 per cent of the entire practice of New York city is charity, and that in a third of such cases the doctor is imposed upon.—North American Review.

# WEST END SCHOOL SHOULD BE BUILT

To Relieve Congestion at Washington Building

Lee School is Dilapidated and Should Be Sold, Says Superintendent Carnagey.

## THE ENROLLMENT DIMINISHES.

Superintendent J. A. Carnagey is opposed to putting any more expense on the Lee school building on the south side, and favors selling it and distributing the pupils between the Franklin and Longfellow buildings, and erecting a new Lee school in the west end.

The Lee building is becoming dilapidated and now it is proposed to make new sanitary arrangements out there. Superintendent Carnagey produced data to show that the enrollment of the school is gradually diminishing, while the Washington building is becoming overcrowded with the growing west end population. The older section of the city is settled principally by older families, and the young people have grown up, while the new families are settling in the west end as shown by the rapidly shifting center of school population.

A new building in the west end would draw from around Guthrie avenue over Nineteenth street and Fountain avenue. Professor Carnagey withdrew one teacher from the Lee building and one from the Jefferson school, to supply vacancies occurring elsewhere. The enrollment of the Jefferson building is diminishing gradually from the same cause.

Professor Carnagey stated his proposition to the board last night, adding that a new west end school would relieve the congestion of the Washington building, which is becoming serious.

## The Janitors.

Janitors of the public schools will be put under the supervision of the superintendent of schools and the superintendent of buildings as was decided at last night's meeting of the school board. The janitors have been under the direction of the committee on supplies. Trustee Clements suggested the change and that the committee on rules and revisions bring in a rule.

Superintendent Carnagey informed the board that the janitors are not doing their duty, and when asked to do small things by the teachers or by himself they put it off and employ incompetent help. Mr. Fred Hoyer, superintendent of buildings, told the board that the janitors refused to do the work he asks of them and when they want anything with which to do repair work the janitors go to the chairman of the supply committee for it and do not consult the superintendent of buildings, when it might be possible that he could do the work himself.

President Hills thought it necessary for the janitors to be under the control of the superintendent, instead of the supply committee, for the superintendent is around to all the buildings every day and can tell exactly what is necessary for the janitors to do.

On a motion of President Hills the

# MAY PROVE ANOTHER MISERABLE EVENING

Why Not Get Some Diaprepin and Rid Yourself of Stomach Distress Forever.

Miserable indeed is the man or woman whose digestive system is unstrung—who goes to the table and can not eat, or what little is eaten, seems to fill them and lays like a lump of lead in the stomach, refusing to digest.

If you, dear reader, suffer this way and will put on your wraps now and get from your pharmacist a 50-cent case of Diaprepin and eat one 22 grain Triangulo after your next meal you would appreciate five minutes later, how long you suffered unnecessarily.

There will be no more indigestion—no misery in the stomach—no sour rising or belching of gas, no heartburn, flatulency or eruptions of undigested food and acid of feeling of nausea, fullness, headache or other symptoms of a weakened stomach.

Stomach trouble and indigestion vanish like snow before the blazing sun.

When Diaprepin works your stomach gets itself in order. Diaprepin purifies and sweetens a sour stomach and freshens the intestines without the use of laxatives, and what is more, it increases the gastric juices. This is what your stomach is begging for—more and better digestive juices. This is what makes you hungry and want to eat, and you can rest assured what you then eat will be taken care of properly and not left in the stomach to ferment and turn to gas and acid, and poison the breath with nauseous odors.

Get a 50-cent case from your drugist now—you ought to have Diaprepin about the house always. Should one of your family eat something which does not agree with him or her, or for a sour stomach or excessive gas one Triangulo will always give immediate relief.

rules and revisions committee was instructed to bring in a rule regarding the employment and regulation of janitors. Trustee Treadway moved that the janitors be required to take the same physical examination as the teachers and also the janitors' help. The motion carried and was referred to the rules and revision committee.

## Superintendent's Report.

Superintendent Carnagey read his monthly report and it was received and filed. Mr. Carnagey also presented to the board the resignation of two teachers: Miss Myrtle C. Venable, who has been doing grade work and who has accepted a place in the High school of Fitzgerald, Ga., and Miss Mary Houdanour, who has been a teacher at the Jefferson school. The resignations were accepted.

Several changes were made and a new teacher hired on recommendation of the superintendent. Miss Ellis was changed from the Lee school to the McKinley school. Miss Hall was changed from the McKinley to the Washington school. Miss Elizabeth Graham was elected a teacher to the High school. Miss Anne Belle Acker was elected a teacher to the Washington building.

The report of the finance committee, showing payroll and incidentals for payment of \$5,361.77 was allowed by the board, leaving in the treasury \$4,162.61. The bill of the Paducah Light and Power company of \$25.80 was given to the chairman of the finance committee for investigation. The board thought the bill too large for seven weeks' work. The bill of Circuit Court Clerk J. A. Miller of \$4.95 was allowed. A plumbing bill of Ed Hannan of \$68.16 for work done at the Jefferson school was referred to Trustee Winstead chairman of the committee on sanitation for investigation. The question arose whether or not a city official or any one holding a public office had a right to do and could do work for a city body or official and if the work was done could he accept payment from a city body such as the school board.

Change of boundaries. Trustee Pettit, of the committee on boundaries, read a recommendation that the boundaries be changed to the following: Seventh street and Broadway, south on Seventh to Washington, west on Washington to Ninth, north on Ninth to Broadway, west on Broadway to Eleventh, and north on Eleventh to Trimbale. This was done. Mr. Carnagey explained to get some of the pupils from the crowded Washington building to the Jefferson building. On motion this report was received and concurred in.

A long discussion on the unsatisfactory condition of the furnaces in several of the school buildings followed, and the board decided to have an expert from Chicago here to examine the plants.

On motion of Mr. Clements, Supt. Carnagey was granted a leave of absence to attend the meeting of the national superintendents which will be held in Chicago, February 23 to 26. It is customary to defray the expenses of the superintendent on such trips as this, and last year this was done, but at his urgent request, Mr. Carnagey will pay his own expenses.

On motion of Mr. Winstead the sum of \$5.00 was ordered held out from the salary of James Jordan, janitor of the Washington building, to pay for a bill for

negligence on the part of the janitor in leaving a window open, causing the water to freeze.

## Committees.

President Hills completed the appointment of the committees to handle this year's school work. The committees are:

Finance—Clements, Kelley and Karnes.

Teachers and course of study—Ferguson, Kelley and Clements.

Supplies—Kelley, Clements and Karnes.

Printing—Winstead, Jacobs and Pettit.

Buildings—Karnes, Judd and Kelley.

Sanitation—Winstead, Price and Jacobs.

Schools—Treadway, Ferguson and Kelley.

Library and Laboratory—Pettit, Judd and Nelhaus.

Grievance—Jacobs, Winstead and Pettit.

Rules and revisions—Nelhaus, Treadway and Pettit.

Boundaries—Judd, Treadway and Pettit.

## Superintendent's Report.

Superintendent Carnagey made the following report:

(Continued)—The report at this date covers the time that has elapsed since December 4, 1908, or two school months.

On December 4, 745 pupils were withdrawn from the schools, due largely to the fear of parents of their children's catching diphtheria or scarlet fever, both of which were very prevalent during November and December. The schools closed on December 18th for the Christmas holiday vacation. We opened again on January 4, 1909. The fourth school month closed on January 8, 1909.

Of the 745 withdrawn pupils, 658 re-entered school during this fourth school month, leaving almost 200 pupils who were still out on January 8, for some cause.

The total enrollment in all schools during the fourth month was 3,056. The average daily attendance was 2,643, a gain of 183 over the third month. The number belonging on January 8, was 2,776, or 223 over the third month.

The number of tardy cases was 475, an increase over the third month of school. There were 9 cases of corporal punishment during the month—all of them in the colored schools. There were 6 cases of truancy, all in the white schools. There was but a single suspension during the month—an incorrigible boy in the Whittier school. Due to the fact of the Thanksgiving holiday season and the Christmas and New Year vacation, with all their anticipated and actual excitement and exhilaration, December is a very unsatisfactory school month in the teacher's calendar. Parents grant their children unusual privileges, and the attendance and consequently the school room work suffers very materially from these irregularities.

## Fifth School Month.

The fifth school month opened on Monday, January 11, and closed Friday, January 23, this month includes three weeks and finishes also the first semester, which has extended from September 14, 1908, a period of nineteen school weeks.

Since the opening of this month on January 11, we have had a good deal of cold and inclement weather and deep snow and slush that prevented the regular attendance of pupils in the primary grades. On this account the average daily attendance fell to 2,595, a loss from the period month of 48 pupils. The number of tardy cases was 415, exactly the same as for the fourth month. There were 5 cases of corporal punishment in all in white schools. The total enrollment in the schools for the fifth month was 2,971, a loss from the fourth month of 115.

There were no cases of truancy. The total enrollment in all the schools since the opening day, September 14, 1908, is 2,378. With Friday, January 23, we close the first half of this school year. I have not been able to go over the reports of the teachers and principals with the care necessary to collate all the facts and figures set down therein, as my time since January 23 to the present has been almost completely taken up in adjustment of teachers and pupils for the new term just beginning.

In a general way it may be said that those pupils who were regular in attendance did good work and were regularly promoted; but there have been so many cases in which pupils were irregular in attendance due to various causes, chief of which were unsettled conditions of the minds of the people on the threatening closing of the schools, the prevalence of diphtheria and scarlet fever and the inclement weather, that a good many children will have to remain in the same grade for the next term. I feel sure that the teachers have labored faithfully to do good work during the semester, and they deserve credit for their loyal service in spite of the handicaps under which they work is due to lack of material and equipment, and the irregular attendance of pupils.

There is one very encouraging feature in our work to which I wish to call your attention. We are holding boys and girls in the upper grades and the High school better than ever before. Both in the white and colored school does this condition obtain. Primary children usually attend school, but the great problem in

Factory, 405 Fraternity Bldg., Paducah, Ky.

This company was organized for the purpose of making for the dentists in all parts of the United States, pure aluminum plate, cast for artificial teeth, an invention of Dr. E. Stamper, of this city. These plates have proven a great success among the dentists also Dr. Stamper has been using them in his own practice for the past year with marked success. From these facts we are sending there cast aluminum plates to the dentists in the states of Alabama, Louisiana, Georgia, Tennessee, Kentucky, Missouri, Vermont, Maine, California and others.

Now these plates being such a success with the dentists at large, we are going to add to our work the local trade—that of Paducah and vicinity.

We have not room here to tell of all the good features of these plates, and we have for our consulting dentist Dr. Stamper, the inventor of the new process, who will do all of our office work. Call at his office, 203-205 Fraternity Building. Office hours 8 to 5:30 daily, Saturday nights 7 to 9. Both telephones.

I urgently request all persons indebted to me to make settlement before the first day of May, 1909, as I will after that date bring suit on every unpaid note and account due me. Now your account is to each of you a small matter, while the whole is to me very important. I shall deal with all alike; if you don't pay you may know that you will be sued, whatever your name or color may be. I hate to do this, but I am forced to it in self-defense. If you have not the money and will borrow it to pay me in full by the first day of March, 1909, I will deduct 10 per cent from your account, thereby paying the interest myself. Is this not as fair as any sane man can ask?

## Home Course In Modern Agriculture

### III.—Preparing the Ground

By C. V. GREGORY.

Agricultural Division, Iowa State College

Copyright, 1908, by American Press Association

SINCE the condition of the soil has so much to do with the readiness with which the plants can get food from it one of the most important problems that confront the farmer is the proper preparation of the ground. The first work of preparation usually consists of plowing. Plowing the ground pulverizes it to some extent and buries the weeds and trash that may be on the surface.

Plowing should not be done when the soil is too wet, or the first of these objects will not be accomplished. Instead of being pulverized, the sliced turned up by the plow will be packed together more firmly than ever and will bake into a hard clod. The furrow slice will also turn up cloddy if the soil is too dry.

A good way to tell when a field is in proper condition to be plowed is to squeeze a ball of the dirt in your hand. If it sticks together in a pasty mass you had better let it dry a few days longer. If it hangs loosely together in a mealy ball the plow can be set to work at once. Such soil will fall over the edge of the moldboard in loose, crumbly masses. The field will not be ridged like a washboard, as too many fields are, but will aptly demonstrate the truth of the old saying that "a field well plowed is half harrowed."

In order to do a neat job of plowing a colter and a weed hook are necessary.

ry attachments. By using them all the trash can be turned under completely. This not only hastens the decay of such matter, but also adds greatly to the looks of the field. Too many farmers do not pay enough attention to looks. A ragged looking field may raise just as large a crop as a smooth one, it is true, but the farmer who is careless in his plowing is likely to be careless in everything else.

If the plowing is done in the fall it does not matter so much whether it turns up cloddy or not. The hard frosts of winter are the best pulverizers that ever tore a clod to pieces. This is one of the advantages of fall plowing. One of the disadvantages is that in an open winter the soil is liable to wash badly. This can be prevented to some extent, however, by planting a catch crop, such as oats or millet, on the field after plowing.

The depth of plowing will vary with the conditions. A light, sandy soil does not need to be plowed as deeply as a heavier one. If the ground is plowed the same depth every year the bottom of the furrow will become hard and the roots will have difficulty in getting through it readily. A good plan is to begin at, say four inches, and plow one-half inch deeper each year until a depth of seven or eight inches is reached. Then go back to four inches and begin over again. In this way a little new soil is turned up every season and the layer of surface soil gradually deepened.

Spring plowing should be shallower than that done in the fall. The soil is full of dry pores, its structure being much the same as that of light bread. If you will put one corner of a slice of bread in a dish of water you will notice that it becomes wet for a considerable distance above the surface of the water. This is caused by the moisture flowing upward through the little holes in the bread. The force that causes water to rise in a small tube is called capillarity. It is this capillarity that makes the water rise from the subsoil up to the surface where the roots can use it. The smaller the capillary tubes the faster and higher the water will rise.

When the ground is plowed these capillary tubes are broken up, and the rise of water is checked. To start it again the soil must be allowed to settle for a long time or else be worked down with the disk, harrow or roller. In the fall the depth of plowing does not matter, since the furrow slice will have all winter in which to settle. But in the spring this capillarity must be restored almost at once or the surface layer will become so dry that germination and later growth will be checked. Hence the importance of shallow plowing, so as to reduce the labor of disk-ing and harrowing. If the surface of the ground is crusted or if there is much trash to be turned under the field should be disked before it is plowed. This will provide for a layer of fine dirt in the bottom of the furrow, which will pack down closely and help to restore capillarity.

If the furrow turns up "shiny" or shows any tendency to bake into clods it should be harrowed every half day, or every day at least. This seems like a great deal of extra work, but if a harrow is kept in the field it does not take long to hitch on to it and go over the newly plowed strip just before quitting for noon or night. A few minutes spent in harrowing at such

times will pulverize the ground more than hours of work after it has become dry and baked.

The fall plowing will usually need to be gone over with the disk to get it in shape for planting. The superior condition obtained by double disk-ing—that is, letting the disk "lap half"—will more than pay for the extra labor. There is an additional advantage in that the surface is left smooth. Disking spring plowing is seldom necessary.

In cases where improper plowing has left a field cloddy the roller may often be used to advantage. A corrugated roller is better for this purpose than a smooth one, as it tends to crush the clods rather than to simply push them down into the finer dirt. A horse-made "plinker" or clod crusher will often answer the purpose as well as a roller.

The roller packs the ground considerably and so quickens the capillary rise of water. If the surface is left smooth much of the moisture that comes up will be lost by evaporation, and later in the season the crop will be likely to suffer from drought. To avoid this the roller should be followed immediately by the harrow.

This loosens a thin layer of surface soil. When the capillary water reaches this loose layer its rise is checked, and comparatively little is lost by evaporation. For this same reason it is often well to harrow fall plowing as soon as it is dry enough in the spring, especially if disk-ing is not to be done until late.

After the ground is plowed and disked the harrow must be used to complete the preparation for planting. There are many kinds of harrows, but none that are better than the ordinary spike tooth. These are made in all styles and sizes. The harrow is economical to use, since it gets over ground so rapidly. The best time to harrow in order to pulverize the soil is immediately after a light shower. The little clods will then be softened and will be easily broken to pieces. To kill weeds, however, it is better to wait until the soil is a little drier, as harrowing a wet field will transplant the weeds rather than destroy them.

Do not be afraid to harrow too much. No work that you can put on a field pays better. No other implement will kill as many weeds in so short a time, and no other machine will tear clods to pieces so rapidly. A field well plowed and disked and harrowed until it is in the fifth as it is possible to make it is an ideal seed bed. Seed planted in such a soil will start under the most favorable conditions. If the seed itself is strong and the after treatment what it should be, a maximum crop may be expected.

Not all fields need to be plowed before the crop is put in. It is a general practice in the corn belt to sow small grain on stalk fields without any previous preparation. Experiments have shown that small grain does not yield enough more on plowed corn stalk ground to pay the cost of plowing. Very frequently they do not yield as much. Where small grain follows small grain, however, plowing is necessary to kill weeds and loosen the surface soil. It does not need to be loosened as deeply as for corn, however, since the small grain plants are harder than corn and the roots are more aggressive in pushing through a hard soil.

While plowing stalk ground is unnecessary, it will usually be found profitable to disk the land before seeding. This chops up the cornstalks and provides a mellow layer of soil for the seed to germinate in. Where the oats are to be put in with a drill the ground should be double disked previously. If sown broadcast

one disk-ing before sowing and one afterward will cover them better than two after sowing. The drill is becoming more popular for sowing oats, and justly so. It places the seed at an even depth and covers them all. It saves seed because it places all of it where it has an opportunity to grow. After the oats are drilled or disked in at least two harrowings should be given. Even three or four would not be too many, since this is the last chance to cultivate the crop.

In some parts of the corn belt the practice of listing corn is followed. This consists in throwing up a large furrow and planting the corn in the bottom of it. In this case there can be little previous preparation of the ground unless it is to go over it once with the disk. Corn is listed only on very light soils, which do not puddle or become cloddy easily. Such soils need less preparation than the heavier clays and loams.

The Henrietta came into port last night from Joppa with a minked harge and two empies. She will prepare to leave for the Tennessee after tica.

River stage at 7 o'clock this morning 13.6, a rise of .9 since yesterday morning. The river here will continue to rise for the next two days. The big towboat Sprague behind 47 coal boats loaded with coal and one model barge loaded with hardware and iron work, passed Paducah last night about 7:30 o'clock on her way to the lower Mississippi. The tow of the Sprague is the largest that has been taken down the Ohio this season.

The steamer Clyde returned from Metropolis early this morning and has been receiving a large cargo of freight at the wharfboat today. She received four cars of freight at Metropolis last night. The Clyde will leave at 6 o'clock this evening for Waterloo, Ala., and way landings and will return next Monday night.

The steamer Chattanooga cleared just after the noon hour today for Chattanooga and all way landings. She had a large cargo of freight aboard. It will take the Chattanooga about 11 days to make the round trip.

The Peters Lee, loaded to the guards, with all kinds of freight, arrived from Cincinnati yesterday afternoon and unloaded about 30 tons of freight at this port and then went to Memphis. The Peters Lee received a large supply of coal from the West Kentucky Coal company while her freight was being unloaded.

The J. B. Richardson arrived from Clarksville this morning and got away this afternoon for Nashville and way landings. She did a good business in and out of this port.

The steamer Joe Fowler came into port this morning from Evansville and way landings and returned immediately after transacting business at the wharfboat. The Joe is doing a good business in and out of this port and Evansville.

The John S. Hopkins will be the Evansville packet tomorrow morning.

The steamer Dick Fowler got away at 8 o'clock this morning for Cairo and will return tonight at 9 o'clock. She had a large passenger and freight list out of this port.

The Royal arrived in port this morning on time and returned this afternoon at 2 o'clock. She did a good business both ways.

The steamer George Cowling made her regular morning and afternoon trips from Metropolis here and return today doing a good business.

All the boats in the Paducah harbor that were blown around last Friday and Saturday are again in the river and floating free. No heavy damages are reported as being done any of the boats. The Sallio, Savannah and the Memphis were around. The recent rise in the river floated the boats off.

The George Gardner with a tow of two barges of stone, passed down the Ohio last evening just behind the Sprague. She is towing stone from Rock Clair to Cairo.

The American arrived from the Cumberland last night and went to Cairo with several barges of ties.

The T. H. Davis came in port yesterday afternoon from Joppa with empties and returned this morning.

The Jim Duffy will be in port today from the Cumberland with a tow of several barges of ties for the Ayer

## C. C. & W. TEAM IS STILL LEADING

Elks Defeats Knights of Columbus in Game.

High School Re-enters League and Will Play the Knights Friday Night.

C. C. & W.	4	0	1000
Elks	3	2	600
D. A. D.	2	2	500
L. & P.	1	2	333
High School	1	2	333
K. C.	0	3	000

Another large crowd of enthusiasts saw the Elks' basketball team win from the Knights of Columbus quintet last night at the Eagles' gymnasium by a score of 15 to 7. However, the score does not indicate how warm the game was, and the Knights played a hard game throughout.

A second practice game was played between the Light and Power team and the D. A. D., in which the D. A. D. team won by the score of 27 to 20. The game was declared the best on a local floor this season.

In the first game the first half ended with the score 11 to 5 in favor of the Elks, and this lead was maintained in the second half. The stars of the Elks were Davis and Goodman, whose good work landed the ball in the basket more than once. On the K. C. team there was no particular star, but every man worked his hardest to win.

In the second game the first half ended 11 to 12, and this tight score was continued throughout. Although the game did not count in the standing, the playing was the best in Paducah this year, and the way the boys worked the ball down the floor was a surprise. Several hard throws that counted were cheered by the crowd of fans.

The teams lined up: Elks—Davis, center; Hennetberger and Hughes, guards; Goodman and Sutton, forwards.

K. C.—Fisher, center; Hand and Fitzpatrick, forwards; Donigan and Donovan, guards.

D. A. D.—Shelton, center; Bagby and Harth, guards; McGinnis and Elliott, forwards.

L. & P.—Engert, center; Froge, Waymon and Young, forwards; Gilliam and Simpson, guards.

Davis was referee; Lydon, umpire; Well, timekeeper; Mulvin, score-keeper.

The High school team has re-entered the league, and will play again Friday night when a double-header will be pulled off. The High school will play the Knights of Columbus, and the Light and Power team will try and down the Chess, Checker and Whist club.

## Spring Neckwear and Dress Accessories

"Why is it that you always have the newest and most exclusive novelties? Other stores don't seem to get them until you have had them some time." This is what a woman said today—we hear it every day—if you have watched this you know it's true.

We make it a point to have the newest and best things first—our styles are exclusive and by the time other people copy them they are old with us and we have something else in its place. There's the whole story.
